

A network for Regulatory Information Management (RIM) Professionals to develop best practices and leading-edge solutions for RIM

Recent topics discussed at rimnet?

Strategy

- The RIM Vision
- The Road Map to maturity, where are you now and where do you want to be?

Governance

- Defining the scope of your RIM landscape
- Ownership and accountability of RIM data across the organization
- Effective metrics and measures to manage quality and compliance

Technology

- Developing your RIM technology strategy
- The challenges of managing a diverse technology landscape
- Integration of RIM systems and tools

What is rimnet?

- Founded in 2014, rimnet started life as a 'RIM Roundtable' and has now developed into a full network. This exclusive network was formed in response to demand from the members of pvnet, pvconnect and labelnet who wanted to discuss the emerging areas of Regulatory Information Management (RIM)
- rimnet provides an open yet confidential peer-to-peer network to share and openly discuss challenges, approaches and develop best practices with respect to RIM
- As a member of rimnet your company will have access to industry surveys and best practice approaches that have been discussed and debated by rimnet members

Who should join rimnet?

- Regulatory Information Management Heads and Professionals representing both business and technical areas of the business

Why join rimnet?

- Future proof your RIM systems, engage with global peers, compare and improve your performance
- Be part of the only global RIM network with exclusive access to:
 - Spring and Autumn in-person meetings in US and Europe; industry leading insights with a strategic focus
 - Technology showcase events driven by member cases to discover cutting edge utilizations of technology, new approaches and collaborations
 - One-on-one meetings to explore insights, relative performance and improvement opportunities
 - Hot topic based industry working groups, think tanks and webcasts
 - Member-only platform for collaboration and resource hub – a secure portal to connect and collaborate with peers and share the latest documented insights
 - Live scientific community discussion board: connect with other members, post and answer questions on latest RIM topics
 - Unique networking with access to Subject Matter Experts within Navitas Life Sciences
 - Routine publications including white papers, benchmark report, discussion summaries

Who to contact

- For more information about rimnet, please contact rimnet@navitaslifesciences.com

At Navitas Life Sciences, we are proud of our portfolio of industry leading networks. Aimed at pharmaceutical industry professionals, our networks were founded as an independent community for business leaders facing similar challenges to have a peer network to exchange insights, compare performance, and debate strategies to tackle the latest hot issues. Each network has a focused and evolving agenda to meet the latest challenges.

Family of Networks

The forum and community is the place to discuss trends, insights and future solutions. The objectives of the network include:

- Peer to peer networking and insight exchange
- Discuss and develop strategies and best practices
- Build profile and industry voice
- Focus on member interests
- Agreement to confidentiality
