

Are you challenged in meeting the PV requirements for your business?

Benefits

- Establish a roadmap to achieving more efficiency and greater business value
- Understand PV System compliance gaps and effectively respond to Health Authority inspection findings
- Leverage sector best practice and Navitas experience
- Provide basis for budget allocation decision-making with regard to PV System improvements

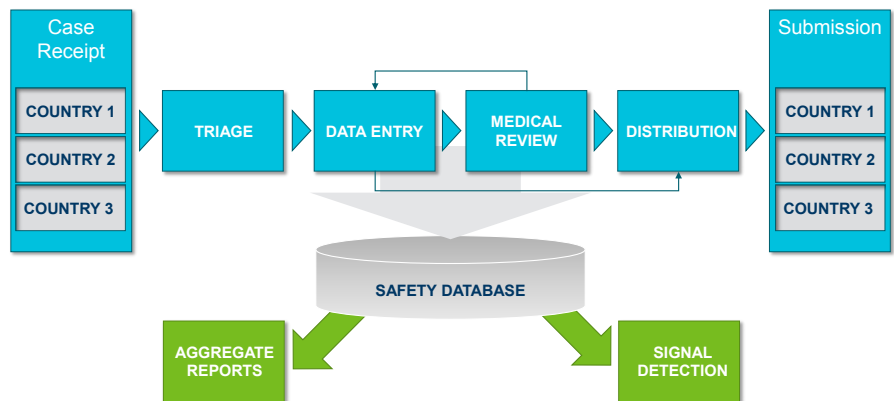

Whether you have known compliance or efficiency issues, or lack a robust PV system to support your growth projections, the PV Rapid Assessment will pinpoint gaps and provide a clear roadmap to a fit-for-purpose, cost-effective solution.

Navitas Life Sciences provides an integrated approach leading to impactful results

- The PV Rapid Assessment evaluates the current state through a PV System review of people, process and technology and provides a focused strategic roadmap for implementing/augmenting PV operations within large and mid-size pharma companies, as well as micro and small biotech/pharma companies
- The Model PV System framework is based on tailored industry best practices in support of a hosted/implemented safety database.

Deliverables

- Comprehensive assessment report summarizing current state PV organization, processes and technology, including identified compliance and process gaps
- Recommendations for fit-for-purpose improvements that ensure regulatory compliance
- Strategic implementation roadmap to achieve PV business objectives

About Navitas Life Sciences

As a partner for the industry, Navitas Life Sciences leverages industry insights, consulting and technology capabilities to deliver full service clinical, regulatory and safety solutions and desired outcomes to clients. As the dedicated life sciences brand of TAKE Solutions, Navitas harnesses the combined knowledge and experience of three legacy brands—Ecron Acunova, Navitas, and Intelnet—to provide end-to-end services and solutions. Navitas helps clients address their most critical problems by bringing together the capabilities of a full-service CRO, a technology-led life sciences services provider across clinical, regulatory and safety, and a life sciences big data services and analytics provider. Operating from 7 countries across the globe, Navitas works with over 150 customers in Life Sciences.
